🎓 EDUCATION

University of Minnesota, Twin Cities (UMN)

Minneapolis, MN

Bachelor of Science in Economics & Minor in Statistics (GPA: 3.85/4)

09/2024 - 05/2026

Honors: Dean's List (Fall 24 & Spring 25), Edward G. Clark Jr. Scholarship (\$2,000, Fall 25), Mooty Internship Scholarship (\$500, Spring 25), Dept. of Economics Undergrad Paper Competition (WEC-sponsored) 2nd Place Award, Senior Capstone (\$500, Fall 25)

🏢 PROFESSIONAL EXPERIENCE

Goat Consulting

Minneapolis, MN

Marketing Analytics Intern

01/2026 - Present

- Built and optimized Amazon product listings (titles, bullets, descriptions, and A+ Content) by translating keyword research into search-aligned copy and compliant brand assets
- Supported Amazon Ads execution by assisting with campaign setup, ongoing optimization, and performance reporting; summarized key metrics to guide campaign adjustments
- Pulled routine performance reports, maintained internal databases, and analyzed results to surface actionable takeaways for account managers and clients

Heller-Hurwicz Economics Institute (HHEI), UMN College of Liberal Arts (CLA)

Minneapolis, MN

Research Assistant – Supervisor: Anran Li, Ph.D., Assistant Professor of Economics

06/2025 - Present

- Built reproducible Python/Stata data pipelines for large administrative datasets (~2.5M records), applying string standardization, entity resolution, and data quality diagnostics (e.g., ~600 unmatched issuers) to produce analysis-ready outputs
- Compiled AI adoption panel data for hospital systems (~900 systems) by coding adoption timing variables, validating observations, and maintaining structured source documentation (~10 authorized sources/system)
- Created crosswalk files for identifier harmonization, supporting consistent merges across BoardEx, Citeline, and SSR

Carlson School of Management at UMN – Carlson Ventures Enterprise (CVE)

Minneapolis, MN

Venture Capital Project Consultant

09/2025 - 12/2025

- Evaluated financing opportunities and market entry strategies for an AI hardware startup and translated findings into client-oriented partnership and investment theses
- Researched 3 publicly traded technology companies' historical strategic partnerships and startup collaboration programs, compiling a database of prior deal structures, technical pilots, and venture investments
- Developed 3 company-specific strategic proposal decks outlining partnership models, adoption pathways, and long-term value creation opportunities for each target corporate client

Bio-Techne (Global Headquarters)

Minneapolis, MN

Accounts Receivable & Credit Intern

06/2025 - 08/2025

- Cleaned, validated, and standardized customer master data for 48,000+ customers across 17 entities, improving data consistency for AR reporting and dashboard modeling
- Designed and scaled Power BI dashboards from U.S. to EMEA coverage, enabling credit balance analysis and monitoring KPIs such as over-credit-limit rates and aging distributions across 70,000+ invoices
- Consolidated monthly and quarterly AR aging outputs into self-serve visualizations by linking invoice-level aging with customer-level profiles, supporting faster cross-region reporting and decision-making

✏️ PROJECT EXPERIENCE

Girls Who Code at UMN

Minneapolis, MN

Dedicated Member

09/2024 - 12/2025

- Co-led the planning of a VR self-defense training proposal, contributing to user research, managing project timeline using Excel-based Gantt charts and facilitated weekly progress check-ins with a 7-person team
- Gained exposure to Python and GitHub through club-hosted tech talks and workshops led by industry professionals

College Fed Challenge 2025

Minneapolis, MN

Presenter Team Member

09/2025 - 10/2025

- Analyzed GDP trends by decomposing expenditure components and evaluating sectoral contributions (BEA/FRED)
- Produced GDP projections through time-series and regression analysis, incorporating robustness checks and scenario comparisons
- Presented findings and defended policy implications during a 15-minute presentation and judged Q&A session

UMN Public Health Equity Data Challenge, School of Public Health (SPH)

Minneapolis, MN

Team Leader of the Project: Reevaluating BMI Standards for Non-Whites

09/2024 - 11/2024

- Guided brainstorming and finalized the research focus "Redefining BMI Standards for Health Equity Improvement: Addressing Racial Disparities in Disease Prevalence" and delivered a blog post and short report highlighting key insights
- Using R for data cleaning, logistic regression, and visualization, found BMI thresholds for 85% disease prevalence vary across racial groups, which underscores the need to adjust screening standards like BMI to ensure equitable disease prevention and improve public health outcomes

💻 SKILLS

Technical Skills: Python, Git, R, Stata, Julia, LaTeX, MS Office, Financial Statement Analysis
